We retract most of what we said of the Journal's being a "Dumb Oracle." The recent editorials are very explicit.

The Journal is mistaken in supposing that we entertained or expressed doubts about its views on the subject of slavery until within a few days before the Convention. Then the Journal refused to answer certain questions which we propounded and we called it the "Dumb Oracle." But we candidly be heve that our neighbors are sincere in their opposition to the admission of salvery into any of the territories. Yet with such convictions how can they stand on a platform, one of whose planks is "the restoration of the Missouri Compromise. There is the rub.

We say, and we ask the Journal to answer us fairly and squarely, if we are not right, that the insertion of that clause in the resolution was a fraud on the Freesoil sentiment of Indiana. Come now. Honor bright. Here is what the Journal says about the meaning of

The Fluid Extract Buchu has been pronounced by emi cent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this disease; and, unlike other remedies, does not dry up the disease; and, unlike other remedies, does not dry up the disease in the blood.

Constitutional debility, brought on by self-abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the gigrious ambition of many a noble youth, can be cared by this Infallible Remedy. And as a medicine which must benefit every body, from the simply delicate to the confined and despairing invalid, no equal is to be found action but he a care and recreative.
